ON A BUDGET? Our 'Economy' shed line has a lower price point than our standard sheds. They are built using less expensive materials and exclude some 'extras' like windows & diamondplate. If you are looking for a good quality, basic storage shed and you don't care about 'bells and whistles', this is it. Even our Economy line is built better than Lowes/Home Depot sheds and they are also less expensive!

Customer is responsible for site preparation, access and permits. Site must be prepared and accessible prior to delivery of structure. Specifications may vary. All measurements are outside roof overhang to overhang and approximate.

#12' wide Quakers and 14' wide structures require a certified escort for delivery; Additional fees apply.
